FIRS' MONETA BOY WHO MADE THE SUPREME SACRIFICE

Theodore Victor Nelson died in the service of his country, while stationed at the Presidio, San Francisco. He took sick with pneumonia about two weeks ago and passed away Thursday afternoon, February 7th. The remains were shipped and received at Overman's funeral parlors here. The funeral services were held at the Moneta M. E. church at 2:30 Tuesday afternoon, Rev. Beller officiating. A corporal in charge of a squad of soldiers from Fort MacArthur and a trumpeter made it an impressive military funeral. The soldier lads acted as pall bearers and honorary escort and at the grave as a firing squad and the trumpeter sounded the final taps. Interment was in Inglewood.

Victor, as he was commonly known, was born in Kansas, 23 years ago and came here with his parents, twelve years ago. Last spring he took a trip East, returning in the fall, and then enlisted.

He is survived by his father and mother, Mr. and Mrs. Carl Nelson, a married sister, Mrs. Frank Nelson, who arrived from the East in time to attend the funeral, and two sisters at home, the Misses Alice and Claudia. His mother has taken the loss of her very beloved son intensely to heart and the whole community sorrows with the bereaved ones. He was widely known and liked and there was a great outpouring of friends and acquaintances at the services, the church being packed. The floral offerings were particularly beautiful and numerous in testimony of the high esteem in which he was held.

He is the first Moneta boy who has made the supreme sacrifice for his country during the great war.

DOINGS OF SCRIBBLERS' CLUB

About three years ago the members of the Seventh Grade English class were writing compositions. They asked if they couldn't read their compositions in class, so having received permission they decided soon after to organize as a club, calling themselves the "Scribblers' Club." When initiation day comes, each new member has to write a composition and for days they must turn in an essay every fair meeting. Every year a member of the faculty is elected for their class advisor and every half-year new officers are chosen. Last year they gave a play entitled, "Aunt Matilda's Birthday Party." Every year the club has two or three afternoon parties, besides spending many Saturdays in various parks.

LINCOLN DAY OBSERVED

Last Tuesday we had an aud call in honor of Abraham Lincoln. Miss Jackson arranged a very interesting program.

The opening number was "The Star Spangled Banner" by the school. Next came a speech by Elwyn Shannon entitled "What Lincoln Accomplished for America." Miss Slater then led the school in two songs, "Over There" and "Keep the Home Fires Burning."

Alice Olds and Stanley Scholfield read "A Perfect Tribute" and the "Gettysburg Speech," respectively.

These were followed with selections by the Girls' Glee Club.

Next came two readings, by Kathryn Kramer and Marie Hauenstein after which the program was closed by the school singing "America."

As an added attraction, an intermediate student proposed an amendment to the high school constitution which would allow them to vote. The spokesman, one of Gardena's future orators, brought out many points worthy of consideration. However it was decided that the high school students should vote on it today.

SCHOOL BIDS FAREWELL TO DARKNESS

Have you noticed any new bright things around the school lately? We don't mean in the educational sense, but in the sense of illumination. If you haven't, you ought to come around some evening. There are two huge lights, one at the front of the main building and one on the telegraph pole at the rear. There is no chance to lose old Gardena High at night now. Beside this there has been a change in the hall lights. Mr. Whitley has had the old shades removed and new ones put in their places. These changes certainly add to the effect of the buildings at night. With so much brilliancy both at night as well as day, the Gardena High School will soon be quite a distinguished institution.

TENNIS COURT REARRANGED

The tennis club have donated the ground that was to be made into a tennis court to Mr. Padgham to be made into gardens. The old court will be fixed up in first class condition with back stops. Work will commence on it as soon as the wheels of the Board of Education commence to turn. It is estimated that the cost will be somewhere between \$150 or \$200.

NEWLY DISCOVERED TALENT

Faculty stunt day is coming! Every teacher will take part in at least one act of a show to be presented in the auditorium.

Mr. Rea is to have charge of the program and has arranged a number

of knock-'em-dead acts. If you cannot imagine Mr. Whitley singing a solo, or Mr. Teall a slicker card man or Miss Rogers as a comedienne, you had better attend this show. The tickets will be ten cents. The proceeds of the play will go to buy baseball equipment.

MISS WELLS WRITES STUDENTS

New York City, Feb. 1, 1918.

Dear G. H. S. People: Don't think I've forgotten you collectively just because I couldn't remember everyone individually. I suppose you'd like to know all about me from the time I left Los Angeles. The train from L. A. was the most local, almost loco, one I was ever on. We had been going perhaps fifteen minutes and were not yet outside the city limits when a halt was made because the baggage car was afire. I reached Oakland almost three hours late. I was able to spend a few hours with my brother and his family, leaving Oakland the Saturday before Christmas and reaching Des Moines, late of course, about noon Christmas Day, in time to eat dinner with my mother and a friend.

There were quite a few soldiers all along the way from California to New York. I remained in Des Moines, my old home town, a week. Of course the visit was very pleasant with old friends.

I enjoyed Pennsylvania scenery, the old fashioned gabled houses, wooded hill sides. In so many places Jack Frost had outdone even the best of the bare trees with glitter which glistened beautifully in the sunshine. The houses reminded me of Hawthorne's, "House of the Seven Gables."

I had expected to find a more intense war feeling the farther East I came. Lo and behold, you'd no more think of war here than in Los Angeles. In fact, it doesn't seem to me people are so patriotic. You don't see them knitting so much. Perhaps they do just as much in private. The "less" days are not observed at all. You can buy meat on Tuesday, white bread on Wednesday in any quantity. I've found out the reason why corn meal is so high. There promised to be such an abundance of corn, but an early freeze prevented its hardening. Now it can be used only for stock feeding.

We're not overly infatuated with New York; at least enough to want to leave California for it. In the first place give me homes with yards

where the filth can be kept in the rear of the lot and not out on the sidewalks. I had heard a great deal about the culty and refinement of the East. They are superior to us, it's very true. So far as I can see, however, it shows itself entirely in discourtesy. The community in which I'm living seems to be composed of all sorts of Jews. I feel like a foreigner. One has to be on the lookout or else he'll be done out of his eye teeth, especially if they be filled with gold. I came near losing my watch. Saloons are very prevalent, usually at each corner and again in the center. Each of them have a family and a ladies' entrance. I haven't investigated that far as yet.

WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash the poisons and toxins from system before putting more food into stomach.

Says inside-bathing makes anyone look and feel clean, sweet and refreshed.

Wash yourself on the inside before breakfast like you do on the outside. This is vastly more important because the skin pores do not absorb impurities into the blood, causing illness, while the bowel pores do.

For every ounce of food and drink taken into the stomach, nearly an ounce of waste material must be carried out of the body. If this waste material is not eliminated day by day it quickly ferments and generates poisons, gases and toxins which are absorbed or sucked into the blood stream, through the lymph ducts which should suck only nourishment to sustain the body.

A splendid health measure is to drink, before breakfast each day, a glass of real hot water with a teaspoonful of limestone phosphate in it, which is a harmless way to wash these poisons, gases and toxins from the stomach, liver, kidneys and bowels; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

A quarter pound of limestone phosphate costs but very little at the drug store but is sufficient to make anyone an enthusiast on inside-bathing. Men and women who are accustomed to wake up with a dull, aching head or have furred tongue, bad taste, nasty breath, sallow complexion, others who have bilious attacks, acid stomach or constipation are assured of pronounced improvement in both health and appearance shortly.

Why?

Why are you not as careful in buying your milk as you do other goods?

Why buy milk that runs from 50,000 to 200,000 bacteria when you can get it that runs under 1,000? Why feed such milk to the little ones and take chances on paying a doctor bill? Why don't you investigate? Bacteria spells DIRT!

Our last bacteria test was 300. Why take chances when you can buy milk of us and be on the safe side all the time.
